

Camila Rocio Diaz

Front-End developer and Product designer
but, above all, a problem solver.

I enjoy building great products, striking a balance between functional and aesthetic design.

I work hard to create incredible experiences designing, developing, testing, and debugging responsive web and mobile applications.

Languages

Spanish (Native)
English (Advanced)

27 years, from Argentina.

Work Experience

2022 - Present

Web Development

Freelance

Creating websites from scratch, starting by defining the client and the company's profile by researching their tastes and needs through meetings, and then, designing the aesthetic part, creating the code, and uploading it to the hosting.

April 2022 - Present

University Professor

at National University of Villa Maria

In the "Representation Systems 1" subject, which is taken in the product design first-year career.

2020 - Present

Industrial Designer

Freelance

Ideation, planning and product development, from their conception to their manufacture and sale.

I work as a 3D object modeler and as a technical draftsman in "SolidWorks" according to ISO standards.

2016 - 2020

Brand Manager / Content Creator

Hardway

Responsible for designing the brand's global strategy, focusing on increasing its value, and using my market trends knowledge, customer needs, and how to sell products.

Social media director, planning the content and campaign.
